RALPH LOOP

● ● ● Claude task loop

```
$ claude --permission-mode acceptEdits "@PRD.md  
@progress.txt \  
1. Read the PRD and progress file. \  
2. Find the next incomplete task and implement it. \  
3. Commit your changes. \  
4. Update progress.txt with what you did. \  
ONLY DO ONE TASK AT A TIME."
```
